OBJECTIVES

Goal-oriented Software Developer with hands-on experience in creating and maintaining scalable RESTful APIs using .NET Core and C#, and developing responsive, user-focused front-end applications with React.JS. Currently seeking a new role where I can contribute to impactful projects, collaborate with cross-functional teams, and continuously grow my technical expertise in a growth-driven environment.

SKILLS

- Back-end Development: C#, .NET Core Web API, RESTful API
- Front-end Development: ReactJS, HTML, CSS
- Background in Node.js and Javascript
- Proficient in Git version control for tracking and managing code changes.
- Adaptable and eager to learn new technologies and methodologies
- Self-motivated and dependable, able to work independently with minimal supervision
- Trustworthy, ethical and good interpersonal skills

TRAININGS

Web Development | May 2021 - August 2021
Generation USA

ACS Back-office Software Development and L4 Training | July 2021 - December 2021
NCR Head Quarter Atlanta, Georgia

EDUCATION

Bachelor of Science in Information Technology | June 2002 - October 2006
University of Cebu - Banilad
Banilad, Cebu City, Philippines

WORK EXPERIENCE

VERIZON

700 Hidden Ridge, Irving, Texas 75038

- **Software Development Engineer II** | March 2025 - December 2025
 - Developed and maintained scalable RESTful APIs using .NET Core and C# and troubleshoot bugs
 - Implemented new functionalities, and collaborated with senior developers to deliver high-quality solutions.

- Collaborated with cross-functional teams in an Agile environment, participating in sprint planning and daily stand-ups.
- Used Git for version control, managing branches, merges, and code reviews.
- **Software Development Engineer I** | November 2022 - March 2025
 - Delivered and supported ATS (Application Tracking System) enhancements and new features across various platforms and projects using ReactJS, Javascript and HTML
 - Fixed bugs associated with ATS client portal.
 - Delivered and supported Fios TV/FCL simulators for various products
 - Used Git for version control, managing branches, merges, and code reviews.
- **Software Development Engineer Apprentice** | November 2021 - November 2022
Verizon Thrive Program
 - Combined on-the-job and classroom training program, gaining hands-on experience and professional development in software engineering
 - Worked on multiple stories, tasks and bug fixes for the ATS (Application Tracking System) project, delivering key functionalities across all projects.
 - Designed and implemented a Warehouse Inventory System as part of the Verizon THRIVE Apprenticeship Program, utilizing Node.js to create RESTful APIs and Sequelize for database management.
